GLUTEN FREE ALLERGY STATEMENT

Gluten Free Essentials is dedicated to manufacture products that are safe for consumers with Celiac Disease as well as some of the major food allergies.

Our products are manufactured in a completely dedicated gluten free facility and are totally free of wheat, rye, barley, and oats. Our facility is also Egg, Casein, Lactose, Dairy, nut (peanut & tree) as well as soy free. (The one exception is that products made with chocolate chips do contain Soy Lecithin.)

We are inspected and registered in the State of Kansas, and do follow HACCP (Hazard Analysis and Critical Control Point) procedures. These include identifying critical points in production operations and food safety issues. This is not a requirement for this type of business, but we feel that by following these guidelines there will be no risk of cross contamination or any other issue involving food safety.
